

## Testimonial for distance healing

Cao Sandra :))

I fell down the stairs and it resulted in a big, ugly scar on my leg. I was so bad that I couldn't sleep at night because of the pain. I contacted Sandra, and after just one treatment my leg was healing and the pain-scale went from 90% of pain to 5%, in just one treatment.

I had an eye infection. My eye was swollen and it was hurting really badly. I felt a massive difference in just under 5 min in the treatment. The pain fell gradually and after 2-3 minutes the pain was gone. The following day my eye got back to normal and you couldn't tell that I had an eye infection.

After having treatments for a year now, I can really tell the differences and people around me can as well. The treatments have helped me to move forward from my past, and also to gain the confidence that I've lost over the years because of bullying, and the fact that I started to be less me. I thought much about what other people thought about me, and how they were seeing me. But now I can say with confidence that I really don't care about what other people think, as long as I'm happy and It makes me happy doing whatever I'm doing. Now I feel more confident, happy and me. It was quite a journey to come to this point, but it was all worth it.

I feel good; I feel peace and contentment with in my self, and satisfaction with who I am.
