

Dear Sandra

I did attempt to send you a big thank you for my healing from Croatia, but unfortunately it wouldn't send.

I had an amazing time overseas, met some incredible people, and all with no pain in my knee and back! I walked for hours, climbed steps in the heat and lugged my bags with the greatest of ease.

Your healing process was amazing and I'm so glad I invested the time, just before flying out, to address the deeper issues you identified that were manifesting in my physical body.

I can only describe the two sessions with you as an experience above and beyond the physical treatments of physio and massage that I had been trying.

Thank you for your kind sensitivity and skill.

Much love

Kathryn
